

Our update letters go out to you all that care about us and this ministry; to those of you who support us financially, and to those who pray for us. We are writing this letter to ask you to pray for us as we find ourselves in a difficult time seeking God's direction for how we should be spending our time as far as ministry goes.

Over the past nine years we have worked hard with our ministry team to develop a training program in both English and Spanish using modern technology (video conference software and recording on YouTube). We have also worked to not let this be void of the personal disciple making process by promoting this training to groups of people learning and talking together.

Our specific area on our team has been in the Spanish side of the training. At present, we are not finding that open door in the Hispanic community with the use of this technology. That being said, God has used this training to prepare people in Spanish but we are at a point of not finding interest and/or willingness to commit.

The desire in both of us to make disciples has not diminished one bit, either in Spanish or English. Our prayer request in this letter is one of finding the door that God wants to open for us. We feel like we are in a position of waiting on God which many times in life is the right thing but not always easy. We want to be hard after the task that God has for us, and are looking for His direction and confidence in the Spirit for that direction.

I don't mean to belabor the point, but in all honesty this time in our lives and the writing of this letter is very difficult. I don't want to be found guilty of being supported for a stated ministry if that ministry is not going to happen. Please be praying for us, that God would make His will clear, and that He would open that door for His word and for the role that we are to play in making disciples for Jesus.

On the lighter side, outside of this specific ministry description, we have been involved in other areas of ministry. I just finished a big project of recording a Firm Foundations, Creation to Christ bible study in both English and Spanish (Can be found on the YouTube channel "Biblbase"). Lisa continues various individual bible studies with ladies in both English and Spanish. I am also moving forward with that bible study with our daughter's ex-boyfriend. It is so cool to study God's word with someone where the majority of every lesson is filled with things that he has never heard. Please pray for his understanding, and that he will believe Jesus and His work on the cross.

Thank you so much for taking these requests to our Father in heaven,

*Kevin and Lisa Lewis*
