News for the Pews

This summer has been one of hope for Mark LaFleur and Frank Puliam. Each of these men has been able to stay in our Patriot Dorm for military veterans.

Mark served in the US Army from 1981-1983 and came to City Rescue Mission after the house he lived in was sold. Mark graduated from Bridgeport High School at age 17 and followed in the footsteps of his father and brother by joining the military and fulfilling his dream of serving. While in the military, Mark was diagnosed with a debilitating medical condition and was honorably discharged. He then found a job with the Saginaw V.A. Hospital where he worked for 24 years.

Frank served in the US Marine Corps from 1978-1984 and is grateful the mission is here to help him. When he arrived at the mission, he was surprised to find so many resources available to veterans. Frank was a communication radio specialist for the Marine Corp and had a good experience with them. He is proud of his service and even more proud that his son is serving with the US Navy.

Mark and Frank are each looking forward to finding permanent housing. Mark is looking forward to enjoying his retirement, and Frank is looking forward to finding permanent employment.

UPCOMING EVENTS
