SPRING 2023

As we head into spring and things begin to grow, we are reminded of the new life that we have in Christ. On resurrection day we were raised with Him. But many do not know of this new life. We continue to pray for the unreached. But we rejoice that some language groups have heard that good news for the first time and have this new life this year. Also thank the Lord with us for those who have completed a translation of God's Word and are getting it into the hands of those new believers.

From Paul and Marina Briggs:

The translation of the New Testament into the Loron language is now complete.

The final check on the last chapters of the book of Revelation took place on Friday afternoon, so now, for the first time, the Loron people of Ivory Coast and Burkina Faso have access to all of the New Testament in their own language.

We thank the Lord for His faithfulness and grace in bringing the work to fruition!

Please continue to prayer for those young adults who are ready to give their lives to reach the unreached. In this confusing world there are many who are looking for something worth giving their lives. We know that working for eternity is of much more value than anything else.

Pray as we share in local churches. That is where we find laborers.
